

## **Glo-Germ**

**Glo Germ™ is a product sold both in liquid and powder form that contains proven safe ingredients formulated to be the same size as bacteria, basically 5 microns in size. When used in either the powder or liquid-based form, with the use of an ultra-violet light, it simulates the spread of germs, teaching how quickly and broadly germs can be spread in a short period of time.**

**For ordering information as well as instructions for its use go to the web site <http://www.glogerm.com>.**
